Len Story, PLS
VP, Surveying &
Mapping

Rick Bennett, PLS
VP, Right of Way

Duane Anderson, PE
Principal Structural
Engineer

R&M's early history included completion of all phases of design and construction inspection for the initial 56-mile segment of the Dalton Highway from Livengood to the Yukon River. During these early years, R&M was also involved in many aspects of development of the 800-mile Trans Alaska Pipeline System. Over the past 39 years, R&M's project experience has grown and diversified. The firm has become well known and respected for our multi-discipline contributions to Alaska's airports, roadways, schools, ports, dams, military facilities and commercial facilities.
