

Jeffery Callahan has 25 years of construction management experience working for contractors, design-builders and governments before joining the faculty ranks at UAA in 1999, Jeffery has an undergraduate degree in Architectural and Engineering Technology from UAA and is currently pursuing a master's degree in Conflict Resolution at Antioch University McGregor.

He has recently completed consulting work on several USAID projects for construction economies in the Middle East and former Soviet-block countries.

He is a former Board member of the Construction Specifications Institute (CSI), and one of the primary authors of the CSI's Project Resources Manual.

Jeffery is a recipient of CSI's Andrew J. Drozda Academic Affairs Commendation in 2004 for his work with students and universities. He helped to write the curriculum and establish the Associate of Applied Science degree in Construction Management at UAA in 2004, leading to the Bachelor of Science degree in Construction Management approval by the UA Board of Regents in 2007.
