

Wanda Munn: Prior to retirement, Ms. Munn was a Senior Nuclear Engineer at Westinghouse Hanford Company. A strong advocate of breeder reactor systems with an interest in public policy, she was closely associated with the Fast Flux Test Facility from construction to closure. Wanda is a member of the Columbia Chapter of the Health Physics Society, a life member of the American Nuclear Society and a Fellow of the Society of Women Engineers. She represented national engineering societies at multiple United Nations preparatory meetings and at international conferences held in Rio de Janeiro, Manchester, and Kyoto. A former Tri Cities Engineer of the Year, she is a past councilwoman for the City of Richland. Wanda is an original member of the Presidentially appointed Advisory Board on Radiation and Worker Health, and continues to serve in that capacity. She received her B.S. from the Department of Nuclear Engineering at Oregon State University, and holds a M.B.A. from the University of Washington.
